### Safe Harbor Agreement Helps Secure the Future of the Humboldt Marten

August 16, 2018 in [General](#), [Wildlife Research](#)

A small population of a rare member of the weasel family has an improved chance at expanding its range, thanks to a joint effort between a forest products company and a state agency.

Green Diamond Resource Company recently signed a safe harbor agreement with the California Department of Fish and Wildlife (CDFW) to help assist in the recovery of the Humboldt marten.
