## *NEWS RELEASE*

### **GREEN DIAMOND OPENS WESTERN WASHINGTON LANDS FOR HUNTING**

(SHELTON, Wash., - October 25, 2022) – Green Diamond Resource Company representatives announced today that the company has opened gates in its Western Washington operations for recreation, effective immediately.

“These are working forest lands, and safety is our highest priority,” said Jason Callahan, forest policy and communications manager for Green Diamond. “An open gate may be a sign that forest management activity is taking place,” he said. “Visitors should be cautious and also consider the fact that fire danger is still moderate.”

More information, including details about signage, rules, and vicinity maps are available online at [greendiamond.com/recreation/washington-lands](http://greendiamond.com/recreation/washington-lands). Visitors to Green Diamond land are encouraged to report illegal activity. “Anyone who witnesses illegal activity should call 911 immediately,” Callahan said. Those who learn about unlawful activities are also encouraged to call the Green Diamond Tip Hotline at 360-427-4090.

*Green Diamond Resource Company is a privately held forest products company with roots dating back to 1890. Today, the company owns working forest lands in Washington, Oregon, Montana, and California. A subsidiary, Green Diamond Management Company, provides forest management services in the U.S. South and West. All lands owned and managed by Green Diamond are independently audited and certified for sustainable forest management. More information about Green Diamond's environmental leadership may be found at [www.greendiamond.com](http://www.greendiamond.com).*
